

Name: Dharti Patel (02007206)

Homework: HW0-Survey

Student email: [Dharti\\_Patel1@student.uml.edu](mailto:Dharti_Patel1@student.uml.edu)

Pers on ID	Problem	App/Website found	Likes	Don't like	Improvements
1	Want free app for pdf reading and high speed for file	Adobe Acrobat Reader	Document view is more stable than view in browser.  Best way to organizing and manipulating files.	Frequently free trial pop-ups.  Larger files are taking long time to get loaded.	Reduce the number of pop-ups by storing user preference whether she/he wants to buy it or not.  Better performance for huge files.
2	Want a language converter website/app with voice	<a href="https://www.translatedict.com/">https://www.translatedict.com/</a>	User friendly interface and easy to use.	Lots of advertisements pop-up  Frequent misunderstanding by the website	Decrease the number of advertisements.  The algorithm should be better to hear/understand native languages
3	Want something that manage sleep timing	Sleep Cycle: Sleep Tracker	Free version with Cool features, connect with watch and compare the summary of weekly data about sleep.	So sensitive about noise so sometimes its not give accurate result.	Noise can be reduced by training the current/model/app with noises at night.
4	Want one app for meet & chat new people	Meet Me: Chat & Meet New People	New concept of live streaming to meet and chat with new people	Messages are not loading as, when streaming starts it freezes.	Make it faster and add some innovative idea for chatting for example could have option to accept the request and then start chatting.
